

1978 Pontiac Firebird Formula 350

I purchased it in 1984 in Alexandria Louisiana - I'm the second owner. It has 59k original miles on it now. We had it painted from silver and black to Pontiac limited edition gold and put an edelbrock aluminum intake on it and new gas tank. It has a 350 motor. Other than that and new tires its stock. Ken Huffaker likes to call it the '**goat roper**' car because I came home one night to one of our goats dancing a jig on the hood of my car - needless to say that goat is no longer with us :)
